Our hospital/health system is committed to ensuring the highest quality of care for all of our patients.

Cincinnati *Aligning Forces for Quality*, an effort of the Health Collaborative and the Robert Wood Johnson Foundation, has a special effort underway to improve quality of care for all patients. Our hospital is proud to be part of this effort.

Through Aligning Forces for Quality, our region is able to build on the success of national work that has helped hospitals across the country make sure they can best meet the needs of all patients regardless of their race, ethnicity or their preferred language for receiving health information.

We are joining the Greater Cincinnati Health Council, our local hospital association, and twenty-five other hospitals across our area to ask patients to indicate their race, ethnicity and primary language as part of the registration process.

Race, ethnicity and language data will be collected according to standardized categories developed by the Institute of Medicine.

WE ASK BECAUSE WE CARE. The information that you provide will help us to ensure that all patients receive the same level of high-quality care.
We Ask Because We Care.

By asking about your race, ethnicity and language, we are better able to ensure that all of our patients receive the same level of quality care.

What is your race?

What is your ethnicity?

What is your primary language?

Providing the Highest Quality of Care — Our Commitment to You.

In collaboration with hospitals throughout Greater Cincinnati
